

ORA Partners Portal (ORAPP) Sample Collections Multi-File Submission for State-Collected Samples Knowledge Article

Summary

The Office of Regulatory Affairs (ORA) Data Exchange (DX) program works to provide a safer food supply to consumers by enabling state labs to share Sample food safety data with FDA. The ORA Partners Portal (ORAPP) is one of three ORA DX systems used by state labs to electronically exchange Sample data with FDA. This knowledge article contains instructions on how to simultaneously **submit multiple Sample Collections files** and **view/download** the submission status in ORAPP.
